OBJECTIVE

To contribute to a results-driven organization by applying my analytical, leadership, and interpersonal skills to develop impactful solutions that drive growth and improve performance, while continuously advancing my own professional development.

ABOUT ME

With 13+ years of experience in software development and enterprise solutions, I have successfully led full-cycle delivery of complex IT projects across diverse domains. My core strength lies in managing cross-functional teams, aligning technical execution with business goals, and delivering scalable, on-time solutions using Agile methodologies and tools like Jira, Azure DevOps, and MS Project. I specialize in translating business requirements into actionable project plans, mitigating risks, and ensuring stakeholder satisfaction. I'm seeking a senior project management role where I can drive innovation, optimize processes, and lead high-impact technology initiatives.

SKILLS

Management:

Skilled in **Agile methodologies (Scrum, Kanban, SAFe)** with hands-on experience in project tools like **Jira, Trello, SharePoint, Azure DevOps, Asana, and MS Project**, alongside strong **UI/UX** and **architecture documentation** using **Figma, Lucidchart**, and **Visio**, backed by proven strengths in **team leadership, conflict resolution, client communication**, and **professional documentation**.

Platform: Experienced with deep expertise in **OFFICE 365 (SHAREPOINT ONLINE), SHAREPOINT SERVER 2010/2013/2016, SHAREPOINT FRAMEWORK (SPFX), POWER APPS, POWER AUTOMATE, POWER BI, NINTEX**

Frontend: Skilled in building dynamic, responsive web and mobile applications using **React, React Native, Angular, JavaScript, jQuery**

Database: Highly skilled in database design, architect, performance maintenance **SQL Server, MongoDB, SQL Lite**

Tools and Technologies: **TickerQ, RabbitMQ, Kafka, IAM, Firebase**

Backend: Expert in developing, supporting, and architecting scalable solutions using **C#, ASP.NET Core, Django Python, Node.js**

Cloud: Experienced in cloud-native development and deployment using **AWS, Azure DevOps, Docker, App Services, App Functions**

DESIGNING: Proficient in front-end design and layout using **HTML5, CSS, Bootstrap** and Tools like **ADOBE PHOTOSHOP AND ILLUSTRATOR**

EDUCATION AND CERTIFICATIONS

ACADEMICS

MASTERS IN COMPUTER SCIENCE, [MUHAMMAD ALI JINNAH UNIVERSITY](#), KARACHI - 2018

BACHELORS IN COMPUTER SCIENCE, [VIRTUAL UNIVERSITY OF PAKISTAN](#) - 2007

CERTIFICATIONS

Project Management

CERTIFIED SCRUM MASTER, [SCRUM ALLIANCE](#) - Nov 2023

CERTIFIED PRODUCT OWNER, [SCRUM ALLIANCE](#) - Feb 2024

Software Development

204-AZURE DEVELOPER ASSOCIATE, [MICROSOFT CERTIFICATION](#) - Oct 2021

400 DevOps Engineer Expert, [MICROSOFT CERTIFICATION](#) - Nov 2021

480 - PROGRAMMING WITH HTML5 WITH JAVASCRIPT AND CSS3, [MICROSOFT CERTIFICATION](#) - Feb 2013

412-CONFIGURINGADVANCEDWINDOWSSERVER2012, [MICROSOFT CERTIFICATION](#) - Aug 2014

WORK EXPERIENCE

PROJECT MANAGER/DEVELOPMENT MANAGER, [INJAZAT](#)

Mar 2022 - Present

- Managed end-to-end project delivery for enterprise applications, ensuring alignment with timelines, budgets, and stakeholder expectations.
- Oversaw cross-functional development teams, driving agile sprints, backlog prioritization, and resource planning.
- Facilitated continuous stakeholder engagement for scope definition, risk management, and delivery sign-off.
- Introduced process improvements and performance KPIs that enhanced team velocity and reduced delivery bottlenecks.
- Coordinated across architecture, QA, and DevOps teams to ensure technical feasibility and solution quality.
- Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability.
- Ensuring project deliveries and optimizing overall project performance.
- End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.

Technologies:

Agile (Scrum/SAFe) methodologies, Azure Boards, MS Project, Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, MongoDB, SQL Server, Docker, Kubernetes

PROJECT MANAGER/SCRUM MASTER/DEVELOPMENT LEAD, [CONTOUR SOFTWARE](#)

May 2014 - Feb 2022

- Managed end-to-end delivery of enterprise applications using Agile methodologies and Azure DevOps.
- Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.
- Lead cross-functional collaboration with programmers and developers to define project scope and direction.
- Establish platforms and coding standards for project development, promoting best practices.
- Conduct evaluations of existing software solutions to pinpoint areas for enhancement.
- Provide technical leadership and mentorship to team members, ensuring access to necessary resources and support.
- Facilitate and oversee scrum meetings, including daily stand-ups, planning, reviews, and retrospectives, to drive agile methodologies for project success.
- Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.

Technologies:

Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, SQL Server, GraphQL, Docker, Kubernetes

PRINCIPAL SOFTWARE ENGINEER, SHAMS SOFTWARE

Apr 2011 - Mar 2014

- Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.
- Excelled in requirement elicitation and team collaboration to guarantee project success.
- Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.

Technologies:

SharePoint 2016, React, Angular, Sitefinity, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

SENIOR SOFTWARE ENGINEER, ALGORITHM CONSULTING

Aug 2010 - July 2011

- Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.
- Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.
- Integrated software components and third-party programs to create fully functional applications.
- Documented system architecture and development processes for future reference and maintenance.

Technologies:

SharePoint, Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

SOFTWARE ENGINEER, NET2APPS TECHNOLOGY

July 2007 - Aug 2010

- Designed, developed, and implemented software applications using C#, Python, or NodeJS.
- Spearheaded the design, development, and deployment of software solutions adhering to the SDLC.
- Conducted thorough investigations into problem areas, delivering robust support and resolutions.
- Employed Agile methodologies, including Scrum, for iterative development and project management.
- Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.

Technologies:

Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server
