

ABOUT ME

Experienced Software Engineer & Team Lead with a proven track record of guiding cross-functional teams to deliver high-impact, scalable web applications. Skilled across the full software development lifecycle, from design and development to deployment, with deep expertise in both front-end and back-end technologies. A strong advocate of agile methodologies and clean, scalable architecture. Passionate about transforming complex business requirements into innovative, high-quality technical solutions. Eager to contribute full-stack expertise and a collaborative spirit to drive your team's success.

SKILLS

BACKEND: ASP.NET CORE, DJANGO  
PYTHON, NODE.JS

FRONTEND: REACT, REACT NATIVE,  
ANGULAR

DATABASE: SQL SERVER, MONGODB,  
SQL LITE

CLOUD: AWS, AZURE DEVOPS,  
DOCKER, APP SERVICES

DESIGNING: HTML5, CSS, BOOTSTRAP

COURSES

- CERTIFIED SCRUM  
PRODUCT OWNER  
SCRUM ALLIANCE  
DEC 2023 - DEC 2023
- CERTIFIED SCRUM MASTER  
SCRUM ALLIANCE  
NOV 2023 - NOV 2023
- 204-AZURE DEVELOPER  
ASSOCIATE  
MICROSOFT  
CERTIFICATION  
OCT 2021 - OCT 2021
- 400 DEVOPS ENGINEER  
EXPERT  
MICROSOFT  
CERTIFICATION  
NOV 2021 - NOV 2021
- 412-  
CONFIGURINGADVANCED  
WINDOWSSERVER2012  
MICROSOFT  
CERTIFICATION  
AUG 2014 - AUG 2014
- 480 - PROGRAMMING  
WITH HTML5 WITH  
JAVASCRIPT AND CSS3  
MICROSOFT  
CERTIFICATION  
FEB 2013 - FEB 2013

WORK EXPERIENCE

INJAZAT  
Mar 2022 - Present

TEAM LEAD

- Implemented architecture & designs by making efficient use of existing technologies and organization skill set.
- Formalized a consistent set of standards for UI design, coding, documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design.
- Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability.
- Ensuring project deliveries and optimizing overall project performance.
- End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.

CONTOUR  
SOFTWARE  
May 2014 - Feb 2022

DEVELOPMENT TEAM LEAD

- Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.
- Lead cross-functional collaboration with programmers and developers to define project scope and direction.
- Establish platforms and coding standards for project development, promoting best practices.
- Conduct evaluations of existing software solutions to pinpoint areas for enhancement.
- Provide technical leadership and mentorship to team members, ensuring access to necessary resources and support.
- Facilitate and oversee scrum meetings, including daily stand-ups, planning, reviews, and retrospectives, to drive agile methodologies for project success.
- Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.

SHAMS SOFTWARE  
Apr 2011 - Mar 2014

PRINCIPAL SOFTWARE ENGINEER

- Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.
- Excelled in requirement elicitation and team collaboration to guarantee project success.
- Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.

ALGORITHM  
CONSULTING  
Aug 2010 - Jul 2011

SR. SOFTWARE ENGINEER

- Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.
- Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.
- Integrated software components and third-party programs to create fully functional applications.
- Documented system architecture and development processes for future reference and maintenance.

NET2APPS  
TECHNOLOGY  
Jul 2007 - Aug 2010

SOFTWARE ENGINEER

- Designed, developed, and implemented software applications using C#, Python, or NodeJS.
- Spearheaded the design, development, and deployment of software solutions adhering to the Software Development Life Cycle (SDLC).
- Conducted thorough investigations into problem areas, delivering robust support and resolutions.
- Employed Agile methodologies, including Scrum, for iterative development and project management.
- Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.
-
