

SYED ZEESHAN ALI

Sr. Full-Stack Software Developer | CSPO | CSM

-  Abu Dhabi, United Arab Emirates
-  +971 50 2195152
-  gecezeeshan@gmail.com

+ ABOUT ME

Experienced Full Stack Developer with a strong track record of delivering scalable, high-impact web solutions for diverse clients and industries. Adept at guiding cross-functional teams through the full software development lifecycle — from requirements gathering and solution architecture to implementation and deployment. Proficient in both front-end and back-end technologies, with a passion for clean, scalable code and agile best practices. Skilled in translating complex business challenges into innovative, practical technical solutions. Committed to driving value, improving efficiency, and delivering results through strategic consulting and hands-on development expertise.

+ SKILLS

Backend: ASP.NET Core, Django
Python, Node.js

Frontend: React, React Native,
Angular

Database: SQL Server, MongoDB,
SQL Lite

Cloud: AWS, Azure DevOps, Docker,
App Services

DESIGNING: HTML5, CSS, Bootstrap

+ COURSES

- DEC 2023 - DEC 2023
CERTIFIED SCRUM PRODUCT OWNER, SCRUM ALLIANCE
- NOV 2023 - NOV 2023
CERTIFIED SCRUM MASTER, SCRUM ALLIANCE
- OCT 2021 - OCT 2021
204-AZURE DEVELOPER ASSOCIATE, MICROSOFT CERTIFICATION
- NOV 2021 - NOV 2021
400 DEVOPS ENGINEER EXPERT, MICROSOFT CERTIFICATION
- AUG 2014 - AUG 2014
412-CONFIGURINGADVANCEDWINDOWS SERVER2012, MICROSOFT CERTIFICATION
- FEB 2013 - FEB 2013
480 - PROGRAMMING WITH HTML5 WITH JAVASCRIPT AND CSS3, MICROSOFT CERTIFICATION

+ WORK EXPERIENCE

- INJAZAT

MAR 2022 - PRESENT

TEAM LEAD

 - Implemented architecture & designs by making efficient use of existing technologies and organization skill set.
 - Formalized a consistent set of standards for UI design, coding, documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design.
 - Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability.
 - Ensuring project deliveries and optimizing overall project performance.
 - End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.
- CONTOUR SOFTWARE

MAY 2014 - FEB 2022

DEVELOPMENT TEAM LEAD

 - Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.
 - Lead cross-functional collaboration with programmers and developers to define project scope and direction.
 - Establish platforms and coding standards for project development, promoting best practices.
 - Conduct evaluations of existing software solutions to pinpoint areas for enhancement.
 - Provide technical leadership and mentorship to team members, ensuring access to necessary resources and support.
 - Facilitate and oversee scrum meetings, including daily stand-ups, planning, reviews, and retrospectives, to drive agile methodologies for project success.
 - Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.
- SHAMS SOFTWARE

APR 2011 - MAR 2014

PRINCIPAL SOFTWARE ENGINEER

 - Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.
 - Excelled in requirement elicitation and team collaboration to guarantee project success.
 - Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.
 - Collaborate with cross-functional teams to define, design, and ship new features.
 - Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.
- ALGORITHM CONSULTING

AUG 2010 - JUL 2011

SR. SOFTWARE ENGINEER

 - Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.
 - Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.
 - Integrated software components and third-party programs to create fully functional applications.
 - Documented system architecture and development processes for future reference and maintenance.
- NET2APPS TECHNOLOGY

JUL 2007 - AUG 2010

SOFTWARE ENGINEER

 - Designed, developed, and implemented software applications using C#, Python, or NodeJS.
 - Spearheaded the design, development, and deployment of software solutions adhering to the Software Development Life Cycle (SDLC).
 - Conducted thorough investigations into problem areas, delivering robust support and resolutions.
 - Employed Agile methodologies, including Scrum, for iterative development and project management.
 - Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.
 -
- MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI

2017

MASTERS IN COMPUTER SCIENCE
- VIRTUAL UNIVERSITY OF PAKISTAN

2007

BACHELORS IN COMPUTER SCIENCE
