ABOUT ME

Experienced Full Stack Developer with a strong track record of delivering scalable, high-impact web solutions for diverse clients and industries. Adept at guiding crossfunctional teams through the full software development lifecycle — from requirements gathering and solution architecture to implementation and deployment. Proficient in both front-end and back-end technologies, with a passion for clean, scalable code and agile best practices. Skilled in translating complex business challenges into innovative, practical technical solutions. Committed to driving value, improving efficiency, and delivering results through strategic consulting and hands-on development expertise.

SKILLS

Backend: ASP.NET Core, Django Python, Node.js

Frontend: React, React Native, Angular

Database: SQL Server, MongoDb, SQL Lite

Cloud: AWS, Azure DevOps, Docker, App Services

DESIGNING: HTML5, CSS, Bootstrap

COURSES

CERTIFIED SCRUM PRODUCT OWNER

SCRUM ALLIANCE

DEC 2023 - DEC 2023

CERTIFIED SCRUM MASTER

SCRUM ALLIANCE

NOV 2023 - NOV 2023

204-AZURE DEVELOPER ASSOCIATE

MICROSOFT CERTIFICATION

OCT 2021 - OCT 2021

400 DEVOPS ENGINEER EXPERT

MICROSOFT CERTIFICATION NOV 2021 - NOV 2021

412-

CSS3

CONFIGURINGADVANCEDWIN

DOWSSERVER2012 MICROSOFT CERTIFICATION

AUG 2014 - AUG 2014

480 - PROGRAMMING WITH **HTML5 WITH JAVASCRIPT AND**

MICROSOFT CERTIFICATION

FEB 2013 - FEB 2013

WORK EXPERIENCE

MAR 2022

TEAM LEAD

INJAZAT

- Implemented architecture & designs by making efficient use of existing technologies and organization skill set. • Formalized a consistent set of standards for UI design, coding,
- documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design.
- Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability.
- Ensuring project deliveries and optimizing overall project performance.
- End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.

MAY 2014

DEVELOPMENT TEAM LEAD

CONTOUR SOFTWARE FEB 2022

- Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.
- Lead cross-functional collaboration with programmers and developers to define project scope and direction.
- Establish platforms and coding standards for project development, promoting best practices.
- Conduct evaluations of existing software solutions to pinpoint areas for enhancement.
- ensuring access to necessary resources and support. • Facilitate and oversee scrum meetings, including daily stand-ups,

• Provide technical leadership and mentorship to team members,

- planning, reviews, and retrospectives, to drive agile methodologies for project success.
- Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.

APR 2011

PRINCIPAL SOFTWARE ENGINEER

SHAMS SOFTWARE MAR 2014

- Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.
- Excelled in requirement elicitation and team collaboration to guarantee project success.
- Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.
- Collaborate with cross-functional teams to define, design, and ship
- Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.

AUG 2010

SR. SOFTWARE ENGINEER

JUL 2011

ALGORITHM CONSULTING

- Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.
- Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.
- Integrated software components and third-party programs to create fully functional applications.
- · Documented system architecture and development processes for future reference and maintenance.

JUL 2007

SOFTWARE ENGINEER

AUG 2010

NET2APPS TECHNOLOGY

- Designed, developed, and implemented software applications using C#, Python, or NodeJS.
- · Spearheaded the design, development, and deployment of software solutions adhering to the Software Development Life Cycle (SDLC).
- · Conducted thorough investigations into problem areas, delivering robust support and resolutions.
- Employed Agile methodologies, including Scrum, for iterative development and project management.
- · Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.

EDUCATION

2017

MASTERS IN COMPUTER SCIENCE MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI

2007

BACHFLORS IN COMPUTER SCIENCE VIRTUAL UNIVERSITY OF PAKISTAN
