SYED ZEESHAN ALI

SR. FULL-STACK SOFTWARE DEVELOPER | CSPO | CSM

PERSONAL DETAIL

OBJECTIVE

To contribute to a results-driven organization by applying my analytical, leadership, and interpersonal skills to develop impactful solutions that drive growth and improve performance, while continuously advancing my own professional development

SKILLS

Backend: ASP.NET Core, Django Python, Node.js

Database: SQL Server, MongoDb, SQL

Platform: Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, SharePoint 2016

Frontend: React, React Native,

Angular

Cloud: AWS, Azure DevOps, Docker, **App Services**

DESIGNING: HTML5, CSS, Bootstrap

EDUCATION AND CERTIFICATIONS

MASTERS IN COMPUTER SCIENCE, MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI

2017

BACHELORS IN COMPUTER SCIENCE, VIRTUAL UNIVERSITY OF PAKISTAN 2007

CERTIFIED SCRUM MASTER, SCRUM ALLIANCE

Nov 2023 - Nov 2023

204-AZURE DEVELOPER ASSOCIATE, MICROSOFT CERTIFICATION

Oct 2021 - Oct 2021

400 DevOps Engineer Expert, MICROSOFT CERTIFICATION

Nov 2021 - Nov 2021

412-CONFIGURINGADVANCEDWINDOWSSERVER2012, MICROSOFT CERTIFICATION

Aug 2014 - Aug 2014

480 - Programming with HTML5 with Javascript and CSS3, microsoft certification

Feb 2013 - Feb 2013

WORK EXPERIENCE

TEAM LEAD, INJAZAT

Mar 2022 - Present

Implemented architecture & designs by making efficient use of existing technologies and organization skill set.

Formalized a consistent set of standards for UI design, coding, documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design.

Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability.

Ensuring project deliveries and optimizing overall project performance.

End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.

Technologies:

Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, MongoDB, SQL Server, Docker, Kubernetes

DEVELOPMENT TEAM LEAD, CONTOUR SOFTWARE

May 2014 - Feb 2022

Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.

Lead cross-functional collaboration with programmers and developers to define project scope and direction

Establish platforms and coding standards for project development, promoting best practices.

Conduct evaluations of existing software solutions to pinpoint areas for enhancement.

Provide technical leadership and mentorship to team members, ensuring access to necessary resources and support.

Facilitate and oversee scrum meetings, including daily stand-ups, planning, reviews, and retrospectives, to drive agile methodologies for project success.

Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.

Technologies:

Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, SQL Server, GraphQL, Docker, Kubernetes

PRINCIPAL SOFTWARE ENGINEER, SHAMS SOFTWARE

Apr 2011 - Mar 2014

Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.

Excelled in requirement elicitation and team collaboration to guarantee project success.

Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.

Collaborate with cross-functional teams to define, design, and ship new features.

Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.

Technologies:

SharePoint 2016, React, Angular, Sitefinity, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

SENIOR SOFTWARE ENGINEER, ALGORITHM CONSULTING

Aug 2010 - July 2011

Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.

Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.

Integrated software components and third-party programs to create fully functional applications. Documented system architecture and development processes for future reference and maintenance.

Technologies:

Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

July 2007 - Aug 2010

Designed, developed, and implemented software applications using C#, Python, or NodeJS. Spearheaded the design, development, and deployment of software solutions adhering to the Software Development Life Cycle (SDLC).

Conducted thorough investigations into problem areas, delivering robust support and resolutions.

Employed Agile methodologies, including Scrum, for iterative development and project

Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.

Technologies:

SharePoint 2016, Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server
