Profile

Passionate Software Engineer with extensive experience in .Net MVC/Core/NodeJS/Angular/React programming and full-stack web development in a broad range of industries. I have a solid understanding of full web and software development life cycles, OOP, Design Patterns, and Agile methodologies. Dedicated to continuously developing, implementing, and adopting new technologies to maximize development efficiency and produce innovative applications.

Technical Skills

BACKEND	**NODEJS, .NET CORE, ASP .NET MVC, C#, VB.NET.**
FRONTEND	**AngularJS, Angular12, React, React Native, HTML5, JavaScript, CSS3, Bootstrap, jQuery**
DATABASE	**SQL SERVER, MYSQL, SQLITE, MONGODB.**
FRAMEWORKS	**MVC, ENTITY FRAMEWORK, MICROSERVICES, KNOCKOUTJS, SITECORE, DOTNETNUKE.**
DESIGNING	**SASS, CSS, HTML5, BOOTSTRAP, PHOTOSHOP, TELERIK, COMPONENTONE.**
OTHERS	**AWS, Azure DevOps, REST/WEB API WCF, WEBSERVICES, CHARGEITPRO, OAUTH, JWT, JSON, AJAX, XML, XSLT, LINQ, SPA, DOCKER, APP SERVICES, EXPRESS.**

Experience

BROMBEER SYSTEMS

TEAM LEAD   **March 2022 – Present**

Main skills: .Net core, NodeJS, SQL server, React

· Implemented architecture & designs by making efficient use of existing technologies and organization skill set.
· Formalized a consistent set of standards for UI design, coding, documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design.
· Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability

- Ensuring project deliveries and optimizing overall project performance.
- End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.

Key achievements:

1. Successfully implemented data security and confidentiality by implementing key processes and protocols.

CONTOUR SOFTWARE

DEVELOPMENT TEAM LEAD   May 2014 – Present

Main skills: .Net core, Asp.net MVC, SQL server, Angular, React

- Develop architectural solutions for databases, user interfaces, and web services.
- Collaborate with programmers and developers to determine project scope and direction.
- Decide on the platforms and coding standards to be used in project development.
- Evaluate existing software solutions to identify areas for improvement.
- Conduct testing to ensure optimal functionality and debug any errors or issues that arise.
- Providing technical guidance and leadership to team members and ensuring that they have the necessary resources and support to complete their tasks.
- Ensuring and conducting scrum meetings (daily scrum, planning, review, backlog grooming, and retrospective meetings) to ascertain agile process for successful project deliveries.
- Working with resources to get clients' requirements translated, planned, and completed promptly and accurately.

Key achievements:

1. Successfully migrated the server and application from AWS to Azure and from Azure to Azure without downtime.
2. Achieved excellent system stability and recognized multiple times at the company level and helped raised client ratio by 35%.
3. Successfully improved portal performance by increasing user-friendliness and automating the process which saved the company budget over 40%.
4. Created an automated code pipeline, increasing allowance to move to a continuous delivery model.

SHAMS SOFTWARE

PRINCIPAL SOFTWARE ENGINEER   APRIL 2011 – APRIL 2014

Main skills: .Net core, asp.net MVC, SQL server

- Worked on healthcare products ranging from CRM to Android apps.
- Requirement gathering and collaboration within the team to ensure successful project delivery.
- Implement CI/CD for smooth product delivery.

Key achievements:
1. Introduced a solid database and GUI to identify user needs with 95% accuracy.
2. Identified areas for modification and improvements within a short span of time.
3. Planned high-end software, improving the overall efficiency of company processes by 25%.

ALGORITHM CONSULTING

SR. SOFTWARE ENGINEER   AUGUST 2010 – MARCH 2012
Main skills: C#, vb.net, asp.net MVC, SQL server

- Developed various ERP modules for the textile industry ranging from import/export to finance.
- Provided support on multiple projects and accommodate client requirements using agile methodologies.

Key achievements
1. Refactored the software structure for an intercommunication service, reducing overhead monthly costs.
2. Developed a business intelligence dashboard that gave the front desk real-time visibility into inventory and procurement.

NET2APPS TECHNOLOGY

SOFTWARE ENGINEER   JUNE 2007 – AUGUST 2010
Main skills: C#, asp.net MVC, SQL server, Angular, React

- Involved in designing, developing, and deploying software solutions by following the software development lifecycle.
- Investigates problem areas and provided support.

Key achievements
1. Removed bugs from the CRM software, making it 38% more efficient than before.
2. Optimized overall application, and increased product sales by 20%.

Projects
Airforce Projects: Flying process, Currency Management, PPMS, Phone Plus.

Construction Industry:

- Homeowner central (www.homeinformationpackages.com).

  Homeowner Central by CONASYS was built specifically for new home builders and developers, offering fully interactive homeowner and builder-specific portals that enhance the homeowner experience. Homeowners can access a wealth of information from any device through engaging and intuitive web portals, allowing home builders to provide first-in-class homeowner care initiatives.

- Customer Insight (http://customerinsight.ca/)

  Survey Management system dedicated to customer experience, equipping homebuilders with operational strategies using feedback from customers, trade partners, employees, and

prospects. Its vision is to help to hear, understand, and connect with customers.

- Customer Connect (http://Customer-connect.ca)

- Survey Application for buyers (http://wosvoc.com)

Health Care Projects: Physician Office Solutions, Patient Kiosk, ezWayFinder, EzDictate, E-Learning.

Textile ERP Solution: Inventory Management, Import Bond, GatePass, Finance Module, Procurement Module.

Human Resource: Fippex, Net2Invoice, Net2Survey

Others: 4Tanslation (www.4translation.com)

Education

- **MICROSOFT CERTIFICATION**
    - 204-AZURE DEVELOPER ASSOCIATE |OCT 30,2021
    - 400 - DevOps Engineer Expert | NOV 16, 2021
    - 412-CONFIGURING ADVANCED WINDOWS SERVER 2012 | AUG 20,2014
    - 480 - PROGRAMMING WITH HTML5 WITH JAVASCRIPT AND CSS3 **|** FEB 14, 2013
- **MASTERS** IN COMPUTER SCIENCE | SEPTEMBER 2017 | MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI
- **BACHELORS** IN COMPUTER SCIENCE | FEBRUARY 2007 | VIRTUAL UNIVERSITY OF PAKISTAN
