OBJECTIVE

To contribute to a results-driven organization by applying my analytical, leadership, and interpersonal skills to develop impactful solutions that drive growth and improve performance, while continuously advancing my own professional development.

ABOUT ME

With 13+ years of hands-on experience in software development and enterprise architecture, I have led full-cycle implementation of scalable IT solutions across multiple domains. My core strength lies in designing and building robust, secure, and maintainable systems using Microsoft technologies, especially **SharePoint, .NET, and Azure**. I excel at turning complex business needs into well-architected, automated solutions that improve efficiency and reduce operational cost. I'm seeking a senior technical role where I can continue solving real-world problems through innovation and modern software practices.

SKILLS

Platform: Experienced with deep expertise in **OFFICE 365 (SHAREPOINT ONLINE), SHAREPOINT SERVER 2010/2013/2016, SHAREPOINT FRAMEWORK (SPFX), POWER APPS, POWER AUTOMATE, POWERB BI, NINTEX**

Frontend: Skilled in building dynamic, responsive web and mobile applications using **React, React Native, Angular, JavaScript, jQuery**

Database: Highly skilled in database design, architect, performance maintenance **SQL Server, MongoDb, SQL Lite**

Tools and Technologies: **TickerQ, RabbitMQ, Kafka, IAM, Firebase**

Backend: Expert in developing, supporting, and architecting scalable solutions using **C#, ASP.NET Core, Django Python, Node.js**

Cloud: Experienced in cloud-native development and deployment using **AWS, Azure DevOps, Docker, App Services, App Functions**

DESIGNING: Proficient in front-end design and layout using **HTML5, CSS, Bootstrap** and Tools like **ADOBE PHOTOSHOP AND ILLUSTRATOR**

EDUCATION AND CERTIFICATIONS

ACADEMICS
MASTERS IN COMPUTER SCIENCE, MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI - *2018*
BACHELORS IN COMPUTER SCIENCE, VIRTUAL UNIVERSITY OF PAKISTAN - *2007*

CERTIFICATIONS

Project Management
 CERTIFIED SCRUM MASTER, SCRUM ALLIANCE - *Nov 2023*
 CERTIFIED PRODUCT OWNER, SCRUM ALLIANCE - *Feb 2024*

Software Development

204-AZURE DEVELOPER ASSOCIATE, MICROSOFT CERTIFICATION - *Oct 2021*
400 DevOps Engineer Expert, MICROSOFT CERTIFICATION - *Nov 2021*
480 - PROGRAMMING WITH HTML5 WITH JAVASCRIPT AND CSS3, MICROSOFT CERTIFICATION - *Feb 2013*
412-CONFIGURINGADVANCEDWINDOWSSERVER2012, MICROSOFT CERTIFICATION - *Aug 2014*

WORK EXPERIENCE

SOLUTION ARCHITECT/DEVELOPMENT MANAGER, I N J A Z A T

Mar 2022 - Present

- Implemented architecture & designs by making efficient use of existing technologies and organization skill set.
- Formalized a consistent set of standards for UI design, coding, documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design.
- Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability.
- Ensuring project deliveries and optimizing overall project performance.
- End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.
  Technologies:
  Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, MongoDB, SQL Server, Docker, Kubernetes

SOLUTION ARCHITECT/DEVELOPMENT TEAM LEAD, C O N T O U R S O F T W A R E
May 2014 - Feb 2022

- Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.
- Lead cross-functional collaboration with programmers and developers to define project scope and direction.
- Establish platforms and coding standards for project development, promoting best practices.
- Conduct evaluations of existing software solutions to pinpoint areas for enhancement.
- Provide technical leadership and mentorship to team members, ensuring access to necessary resources and support.
- Facilitate and oversee scrum meetings, including daily stand-ups, planning, reviews, and retrospectives, to drive agile methodologies for project success.
- Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.
  Technologies:
  Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, SQL Server, GraphQL, Docker, Kubernetes

PRINCIPAL SOFTWARE ENGINEER, S H A M S S O F T W A R E
Apr 2011 - Mar 2014

- Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.
- Excelled in requirement elicitation and team collaboration to guarantee project success.
- Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.
- Collaborate with cross-functional teams to define, design, and ship new features.

- Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.
  Technologies:
    SharePoint 2016, React, Angular, Sitefinity, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

---

SENIOR SOFTWARE ENGINEER, ALGORITHM CONSULTING
Aug 2010 - July 2011

- Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.
- Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.
- Integrated software components and third-party programs to create fully functional applications.
- Documented system architecture and development processes for future reference and maintenance.
  Technologies:
    SharePoint, Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

SOFTWARE ENGINEER, NET2APPS TECHNOLOGY
July 2007 - Aug 2010

- Designed, developed, and implemented software applications using C#, Python, or NodeJS.
- Spearheaded the design, development, and deployment of software solutions adhering to the SDLC.
- Conducted thorough investigations into problem areas, delivering robust support and resolutions.
- Employed Agile methodologies, including Scrum, for iterative development and project management.
- Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.
  Technologies:
    Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server
