FRONTEND	C#, VB.NET, JAVASCRIPT, TYPESCRIPT, JQUERY, OBJECTIVE C, C++, MACHINE LEARNING.
DATABASE	SQL SERVER, MONGODB, MYSQL, SQLITE.
FRAMEWORKS	MVC, ENTITY FRAMEWORK, MICROSERVICES, KNOCKOUTJS, SITECORE, DOTNETNUKE.
DESIGNING	SASS, CSS, HTML5, BOOTSTRAP, PHOTOSHOP, TELERIK, COMPONENTONE.
API	REST/WEB API WCF, WEBSERVICES, CHARGEITPRO, OAUTH, JWT
OTHERS	JSON, AJAX, XML, XSLT, LINQ, SPA, DEVOPS, DOCKER, APP SERVICES, EXPRESS.

Experience

INJAZAT

TEAM LEAD | March 2022 - Present

· Implemented architecture & designs by making efficient use of existing technologies and organization skillset
· Formalized a consistent set of standards for UI design, coding, documentation, and specifications to improve and maintain performance and other non-functional aspects of the architecture/design
· Improved scalability of application deployments by designing and implementing simple but very efficient component load-balancing techniques thereby increasing horizontal scalability
· Ensuring project deliveries and optimizing overall project performance.
· End-to-end meetings with stakeholders for process improvement, planning, integration, and delivery management.

CONTOUR SOFTWARE

DEVELOPMENT TEAM LEAD | SEPTEMBER 2018 - Present

· Developing multiple projects by ensuring priorities.
· Providing technical guidance and leadership to team members and ensuring that they have the necessary resources and support to complete their tasks.
· Ensuring and conducting scrum meetings (daily scrum, planning, review, backlog grooming, and retrospective meetings) to ascertain agile process for successful project deliveries.
· Working with resources to get clients' requirements translated, planned, and completed promptly and accurately.
· Recruiting, Hiring, and training across teams, knowing all team member's strengths and weaknesses, and working with them to ensure a positive outcome.
· Creating opportunities for the company to gain more business as well as helping the client achieve needs.
· Encouraging, arranging, motivating, and conducting training and refresher sessions for the resources to get to know new technologies as well as better ways to do common things.

TEAM LEAD | SEPTEMBER 2014 – 2018

· Design and implement software applications.
· Develop architectural solutions for databases, user interfaces, and web services.
· Collaborate with programmers and developers to determine project scope and direction.
· Decide on the platforms and coding standards to be used in project development.
· Evaluate existing software solutions to identify areas for improvement.
· Conduct testing to ensure optimal functionality and debug any errors or issues that arise.

SHAMS SOFTWARE
PRINCIPAL SOFTWARE ENGINEER | APRIL 2011 – APRIL 2014
· Worked on healthcare products ranging from CRM to android apps.
· Requirement gathering and collaboration within the team to ensure successful project delivery.
· Implement CI/CD for smooth product delivery.

ALGORITHM CONSULTING
SR. SOFTWARE ENGINEER | AUGUST 2010 – MARCH 2012
· Developed various ERP modules for the textile industry ranging from import/export to finance.
· Provided support on multiple projects and accommodate client requirements using agile methodologies.

NET2APPS TECHNOLOGY
SOFTWARE ENGINEER |JUNE 2007 – AUGUST 2010
· Involved in designing, developing, and deploying software solutions by following the software development lifecycle.
· Investigates problem areas and provided support.

Projects

Construction:

- Homeowner central (www.homeinformationpackages.com).

  Homeowner Central by CONASYS was built specifically for new home builders and developers, offering fully interactive homeowner and builder-specific portals that enhance the homeowner experience. Homeowners can access a wealth of information from any device through engaging and intuitive web portals, allowing home builders to provide first-in-class homeowner care initiatives.

- Customer Insight (http://customerinsight.ca/)

  Survey Management system dedicated to customer experience, equipping homebuilders with operational strategies using feedback from customers, trade partners, employees, and prospects. Its vision is to help to hear, understand and connect with customers.

- Customer Connect (http://Customer-connect.ca)

- Survey Application for buyers (http://wosvoc.com)

Airforce Projects: PPMS, Phone Plus, Flying process

Health Care Projects: Physician Office Solutions, Patient Kiosk, ezWayFinder, EzDictate, E-Learning.

Textile ERP Solution: Inventory Management, Import Bond, GatePass, Finance Module, Procurement Module.

Human Resource: Fippex, Net2Invoice, Net2Survey

Others: 4Tanslation (www.4translation.com)

Education

- **MICROSOFT CERTIFICATION**
  - 204-AZURE DEVELOPER ASSOCIATE |OCT 30,2021
  - 400 - DevOps Engineer Expert | NOV 16, 2021
  - 412-CONFIGURING ADVANCED WINDOWS SERVER 2012 | AUG 20,2014
  - 480 - PROGRAMMING WITH HTML5 WITH JAVASCRIPT AND CSS3 **|** FEB 14, 2013
- **MASTERS** IN COMPUTER SCIENCE | SEPTEMBER 2017 | MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI
- **BACHELORS** IN COMPUTER SCIENCE | FEBRUARY 2007 | VIRTUAL UNIVERSITY OF PAKISTAN
