

SYED

ZEESHAN ALI

Dear Hiring Manager,

I am writing to express my interest in the **Senior Technical Software Engineer (.NET)** position at **Emirates Group IT**. With over 13 years of hands-on experience in designing, developing, and supporting **enterprise-grade software solutions**, I am excited about the opportunity to contribute to Emirates' mission of delivering innovative, reliable, and scalable technology platforms that enable customers to "Fly Better."

Throughout my career, I have worked as a senior member of agile feature teams, independently delivering technical design, development, deployment, and maintenance of complex applications. I bring strong expertise in **C#, .NET Framework, .NET Core, and ASP.NET**, with proven experience building microservices-based architectures, secure **REST** and **SOAP APIs**, and event-driven systems using messaging platforms such as **Kafka** and **RabbitMQ**. My background includes designing cloud-native solutions on **Microsoft Azure**, implementing **CI/CD** pipelines, and ensuring system performance, reliability, and observability.

In my current role, I actively participate in **technical design** and **code reviews**, contribute to sprint planning, investigate and resolve complex production issues, and drive adoption of engineering best practices including automation, built-in quality, and continuous improvement. I also mentor software engineers, supporting skill development while remaining deeply hands-on in delivering high-quality technical solutions.

I am particularly drawn to Emirates Group IT because of its scale, **innovation-driven culture**, and the opportunity to work on diverse systems supporting passenger services, operations, and global business platforms. I am confident that my strong **technical foundation, problem-solving mindset**, and experience working in large enterprise environments align well with the expectations of a **Senior Technical Software Engineer** at **Emirates**.

I would welcome the opportunity to further discuss how my skills and experience can contribute to the continued success and innovation of Emirates Group.

Thank you for your time and consideration.

Kind regards,

Syed Zeeshan Ali
