OBJECTIVE

To contribute to a results-driven organization by applying my analytical, leadership, and interpersonal skills to develop impactful solutions that drive growth and improve performance, while continuously advancing my own professional development.

ABOUT ME

Dynamic, results-driven **Software Engineering Manager** and **Solution Architect** with over **13 years of experience** in **enterprise application development, cloud-native solutions, and full software lifecycle management**. Proven expertise in **leading distributed engineering teams, defining software delivery strategies, and implementing scalable, high-performance applications** across **Azure, AWS, and hybrid cloud environments**. Adept in **Agile methodologies, DevOps automation, and micro services architecture**, with a focus on achieving engineering excellence, operational efficiency, and continuous improvement.

CORE COMPETENCIES

- Software Engineering Leadership & Strategy
- Enterprise Architecture & System Design
- Agile & Scrum Delivery (CSM, CSPO Certified)
- Cloud-Native & Microservices Architecture
- Frontend Engineering (Angular, React.js, Node.js)
- Backend Development (.NET Core, C#, Java Spring Boot, WebFlux)
- CI/CD Automation (Jenkins, GitHub Actions, Azure DevOps, OpenShift)
- DevOps & Infrastructure as Code (Docker, Kubernetes, Terraform)
- Database Design & Performance (SQL Server, PostgreSQL, MongoDB, ElasticSearch)
- Security, Scalability & Reliability Engineering
- Stakeholder Engagement & Product Alignment
- Coaching, Mentorship & Capability Building

SKILLS

Platform: Experienced with deep expertise in **OFFICE 365 (SHAREPOINT ONLINE), SHAREPOINT SERVER 2010/2013/2016, SHAREPOINT FRAMEWORK (SPFX), POWER APPS, POWER AUTOMATE, POWER BI, NINTEX**

Frontend: Skilled in building dynamic, responsive web and mobile applications using **React, React Native, Angular, JavaScript, jQuery**

Database: Highly skilled in database design, architect, performance maintenance **SQL Server, MongoDB, SQL Lite**

Tools and Technologies: **TickerQ, RabbitMQ, Kafka, IAM, Firebase**

Backend: Expert in developing, supporting, and architecting scalable solutions using **Java, C#, ASP.NET Core, Django Python, Node.js**

Cloud: Experienced in cloud-native development and deployment using **AWS, Azure DevOps, Docker, App Services, App Functions**

DESIGNING: Proficient in front-end design and layout using **HTML5, CSS, Bootstrap** and Tools like **ADOBE PHOTOSHOP AND ILLUSTRATOR**

EDUCATION AND CERTIFICATIONS

ACADEMICS

MASTERS IN COMPUTER SCIENCE, MUHAMMAD ALI JINNAH UNIVERSITY, KARACHI - 2018

BACHELORS IN COMPUTER SCIENCE, VIRTUAL UNIVERSITY OF PAKISTAN - 2007

CERTIFICATIONS

Project Management

CERTIFIED SCRUM MASTER, SCRUM ALLIANCE - Nov 2023

CERTIFIED PRODUCT OWNER, SCRUM ALLIANCE - Feb 2024

Software Development

204-AZURE DEVELOPER ASSOCIATE, MICROSOFT CERTIFICATION - Oct 2021

400 DevOps Engineer Expert, MICROSOFT CERTIFICATION - Nov 2021

480 - PROGRAMMING WITH HTML5 WITH JAVASCRIPT AND CSS3, MICROSOFT CERTIFICATION - Feb 2013

412-CONFIGURINGADVANCEDWINDOWSSERVER2012, MICROSOFT CERTIFICATION - Aug 2014

WORK EXPERIENCE

DEVELOPMENT MANAGER/SOLUTION ARCHITECT, INJAZAT

Mar 2022 - Present

- Define and execute the **software engineering strategy**, ensuring alignment with business goals and enterprise architecture standards.
- Lead, mentor, and coach cross-functional engineering teams to deliver **enterprise-scale, cloud-native web applications**.
- Partner with **product owners, enterprise architects, and business stakeholders** to define roadmaps and ensure end-to-end alignment.
- Oversee **Agile delivery cycles**, ensuring milestones are met with optimal quality, scalability, and performance.
- Drive the implementation of **micro services architectures** and **API-first design**, improving modularity and scalability.
- Champion **DevOps transformation**, implementing automated pipelines using **Jenkins, GitHub Actions, Docker, and Kubernetes**, reducing release time by 40%.
- Conduct periodic **code reviews, technical assessments, and performance tuning** to uphold engineering standards.
- Drive engineering governance through reusable frameworks, CI/CD templates, and architectural review boards.
- Lead adoption of **cloud-native and serverless technologies** in Azure and AWS to enhance operational agility and cost efficiency.
- Act as a **technical advisor** for large-scale integration projects, translating technical challenges into actionable business outcomes.

Technologies:

Power Apps, Power Automate, Nintex Workflow, Nintex Form, Office 365, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, MongoDB, SQL Server, Docker, Kubernetes

SOLUTION ARCHITECT/DEVELOPMENT TEAM LEAD, CONTOUR SOFTWARE

May 2014 - Feb 2022

- Architect and develop database solutions, user interfaces, and web services, ensuring robust and scalable outcomes.
- Lead cross-functional collaboration with programmers and developers to define project scope and direction.
- Establish platforms and coding standards for project development, promoting best practices.
- Conduct evaluations of existing software solutions to pinpoint areas for enhancement.
- Provide technical leadership and mentorship to team members, ensuring access to necessary resources and

support.

- Facilitate and oversee scrum meetings, including daily stand-ups, planning, reviews, and retrospectives, to drive agile methodologies for project success.
- Coordinate with stakeholders to accurately and efficiently translate and fulfill client requirements.

Technologies:

Java, Spring Boot, WebFlux, RESTful APIs, Microservices Databases: Oracle, PostgreSQL, MongoDB, ElasticSearch Cloud: AWS, Azure, or GCP, React Native, React, Angular, Node, C#, Python, Machine Learning, Kafka, RabbitMQ, Azure, CI/CD, SQL Server, GraphQL, Docker, Kubernetes

PRINCIPAL SOFTWARE ENGINEER, SHAMS SOFTWARE

Apr 2011 - Mar 2014

- Spearheaded development of diverse healthcare solutions, including CRM systems and Android applications.
- Excelled in requirement elicitation and team collaboration to guarantee project success.
- Masterminded the implementation of CI/CD pipelines, enhancing product delivery efficiency.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Troubleshoot, debug, and upgrade existing systems to ensure they meet quality standards.

Technologies:

Java, .Net, Sprint Boot, React, Angular, Sitefinity, Node, C#, RabbitMQ, Azure, CI/CD, Oracle, SQL Server, REST API's

SENIOR SOFTWARE ENGINEER, ALGORITHM CONSULTING

Aug 2010 - July 2011

- Engineered comprehensive ERP modules tailored for the textile sector, encompassing import/export and financial operations.
- Delivered robust support across multiple projects, adeptly adapting to client needs with Agile methodologies.
- Integrated software components and third-party programs to create fully functional applications.
- Documented system architecture and development processes for future reference and maintenance.

Technologies:

Java, Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server, REST API's

SOFTWARE ENGINEER, NET2APPS TECHNOLOGY

July 2007 - Aug 2010

- Designed, developed, and implemented software applications using C#, Python, or NodeJS.
- Spearheaded the design, development, and deployment of software solutions adhering to the SDLC.
- Conducted thorough investigations into problem areas, delivering robust support and resolutions.
- Employed Agile methodologies, including Scrum, for iterative development and project management.
- Continuously updated technical knowledge and skills by attending workshops, conferences, and online courses.

Technologies:

Angular, Node, C#, RabbitMQ, Azure, CI/CD, SQL Server
